The Best Choice for Global Business Information

Your competitive advantage depends on knowing and anticipating the changes that affect your business. Modulindo equips your whole organization with the news and business information you need to stay current and be strategic. Our award-winning service redefines how you find business information with powerful tools and unmatched accuracy. Researching and monitoring companies, industries, regional affairs—or any news—has never been easier.

"Easier, Faster and More Relevant"

The World's Most Valued News and Business Information. Any information service is only as good as its content, and Modulindo offers more than 50 publications from many media. Whether you're monitoring competitors, regional trends, or researching news, Modulindo has the quality and scope of sources you need to stay ahead.

Discover More To create a sustainable competitive advantage, you must be smarter and faster than your competition. You can't afford to waste time sifting through mountains of irrelevant search results looking for answers. Only Modulindo cuts through information overload to deliver relevant, thought-provoking business information that widens your vision while sharpening your focus.

More Relevant Business professionals spend less time searching and more time using the information to make better business decisions. By simply entering one or two words, an approach that's familiar to users of Web search engines, they can quickly find business-critical information. Others may provide access to content, but only Modulindo delivers all of the relevant content and only the relevant content - ensuring that users are not overloaded with thousands of articles.

Smarter Modulindo delivers targeted business information with a simple Web-like search. Search results are displayed in charts and graphs to uncover trends, article timelines, top companies mentioned and more. It uncovers themes and trends that you wouldn't find unless you read each article, allowing you to spend more time analyzing and understanding the information.

"Both experienced searchers and business users will seize these tools to help them discover what they don't even know to ask".
